

Monday, 29 August 2022

| | | Lille Grand Palais | Lille University, Pont de Bois campus | MESHS | Imaginarium |
|------------------|---------------|--|--|--|---|
| | | 1 Bd des Cités Unies, 59777 Lille | 3 Rue du Barreau, 59650 Villeneuve-d'Ascq | 2 Rue des Canoniers, 59000 Lille | 99 A Bd Constantin Descat, 59200 Tourcoing |
| | | Room 3.1 B & C | Amphi B7 | Bailetto room | Salle de Conférence |
| Satellite events | Morning | | Women in Cognitive Science 9:30 - 11:30 | New practices in cognitive psychology: online experiments 10:00 - 12:00 | Peripersonal Space Satellite event 9:00 - 12:00 |
| | Afternoon | Pathway to excellence: What kind of opportunities do MSCA action Postdoctoral Fellowships and ERC offer to young researchers in cognitive psychology? 13:30 - 15:30 | | Bayesian cognitive modeling using the R-package brms 13:00 - 15:00 | Peripersonal Space Satellite event 13:00 - 15:00 |
| | | A tribute to Jacques Mehler, a major contributor to cognitive psychology 15:30 - 17:30 | | | |
| ESCOP 2022 | From 14:00 | Welcome registration, Lille Grand Palais 1 Bd des Cités Unies, 59777 Lille | | | |
| | 17:30 - 18:30 | Opening ceremony | | | |
| | 18:30 - 19:30 | Antje Meyer | | Broadbent lecture | Timing in conversation |
| | 19:30 - 21:00 | Welcome cocktail | | | |

Tuesday, 30 August 2022

| | Grand Théâtre floor 1 | Théâtre L. Pasteur floor 2 | Salle 3.1 B+C floor 3 | Le studio floor 3 low | Rooms 3.5 & 3.6 floor 3 up | Le lounge floor 3 low | Room 3.3 floor 3 up | Room 3.4 floor 3 up |
|---------------------------|---|---|--|--|---|---|---|--|
| 8:00 – 9:00 | Welcome registration, Lille Grand Palais | | | | | | | |
| 9:00 – 10:40 Symposium 1 | Psychonomic Society Collaborative Symposium : Linking Language Perception and Production: Latest Insights and Future Directions | New Avenues in Cognitive Aging | Embodied emotions: the multifaceted relationship between the body, felt emotions, and how they influence our behaviour | Are visuomotor compatibility effects a support for visuomotor representations? | Disentangling the role of morpho-syntactic competence in reading. Evidence from different languages and populations | Cognitive processes in children's drawings | Individual differences in native and foreign language skills—New perspectives and methodologies | Qualitative approaches in cognitive psychology: showcasing possibilities through the lens of creative problem-solving research |
| 10:40 – 11:00 | Coffee break, hall Lille | | | | | | | |
| 11:00 – 12:40 Talk 1 | Cognitive control 1 | Prospective memory | Language Learning | Narration & Dialogue | Auditory Perception | Empathy | Numerical Cognition | Motor Control |
| 12:40 – 14:30 | Lunch & Posters 1, hall Lille | | | | | ESCOP business meeting 13:00–14:00, le Studio (floor 3 low) | | |
| 14:30 – 16:10 Talk 2 | Working memory & Attention | Word learning | Language Production | Cognitive control 2 | Episodic memory | Attention | Visual Perception | Spatial cognition |
| 16:10 – 16:30 | Coffee break, hall Lille | | | | | | | |
| 16:30 – 18:10 Symposium 2 | Numerical cognition: comparative, developmental and neurobiological perspective on spatial numerical association | The interplay of episodic memory and dynamic prior knowledge structures | L1/L2 novel word learning: investigating methodological issues and orthographic and semantic aspects | Rules & behavior: Emerging views on the cognitive foundations of rule representation and retrieval | Windows into the Mind: The Interplay of Affect and Cognition for Gaze and Face Processing | Variability in embodied cognition: Individual differences and context effects in sensorimotor and semantic processing | Toward an integrated approach of future-oriented cognition | Methodological and Theoretical Advances in Disgust Research |
| 18:20 – 19:20 | Keynote speaker, Grand Théâtre David Sander Affectivism, relevance, and cognition | | | | | | | |

Wednesday, 31 August 2022

| | Grand Théâtre floor 1 | Théâtre L. Pasteur floor 2 | Salle 3.1 B+C floor 3 | Le studio floor 3 low | Rooms 3.5 & 3.6 floor 3 up | Le lounge floor 3 low | Room 3.3 floor 3 up | Room 3.4 floor 3 up |
|------------------------------|--|---|--|--|--|---|---|---|
| 8:00 – 9:00 | Welcome registration, Lille Grand Palais | | | | | | | |
| 9:00 – 10:40 Symposium 3 | Human actions and their effects: from motor predictions to the sense of agency | Embodied cognition: A psychophysiological perspective | Recent developments linked to the focus of attention in working memory | Statistical learning and reading research: a novel perspective | Emotions in native and foreign languages | Cognitive training and transfer: What are the mechanisms? | Rhythm and cognition: theoretical challenges and rehabilitation perspectives | The visual perception system and math learning |
| 10:40 – 11:00 | Coffee break, hall Lille | | | | | | | |
| 11:00 – 12:40 Talk 3 | Working memory & Serial order | Multitasking 1 | Symbolic and Sociality in memory | Arousal & Attention & Consciousness | Language Comprehension | Bilingualism | COVID-19 effects | Objects & Agency |
| 12:40 – 14:30 | Lunch & Posters 2, hall Lille | | | CNFPS workshop 13:00-14:15, le Studio (floor 3 low) | | Product demonstration 13:00-14:00, rooms 3.1 B & C (floor 3) | | |
| 14:30 – 16:10 Talk 4 | Language & Reading Acquisition | Bilingualism & Foreign languages | Timing & Forgetting in working memory | Multitasking 2 | Retrieval in memory | Cognitive functions & Methods | Perception & Spatial Cognition | Emotion |
| 16:10 – 16:30 | Coffee break, hall Lille | | | | | | | |
| 16:30 – 18:10 Symposium 4 | Social Sense of Agency | The role of visual attention in reading acquisition: Insights from multiple methodological perspectives | From segmentals to suprasegmentals in reading and writing | Numerical cognition: Evolution, Embodiment and Environment | Recent advances in understanding the evaluation and the allocation of cognitive effort | The determinants of working memory development: past proposals and new findings | The Impact of the Procedural Memory System on Disorders of Language Development | Recent Findings on the Relation between Self-Regulation and Executive Functioning Across the Lifespan |
| 18:20 – 19:20 | Bertelson Lecture, Grand Théâtre | | | | | | | |
| | Roland Pfister | | | | Rules and behavior | | | |

| | | | | | | | | |

|-------------------|-----------------------------------|-----------------|---------------|------------------------|----------------------------|-------------------|-------------------------|--------------------------|

Thursday, 01 September 2022

| | Grand Théâtre floor 1 | Théâtre L. Pasteur floor 2 | Salle 3.1 B+C floor 3 | Le studio floor 3 low | Rooms 3.5 & 3.6 floor 3 up | Le lounge floor 3 low | Room 3.3 floor 3 up | Room 3.4 floor 3 up |
|------------------------------|---|---|--|--|--|--|--|-------------------------------------|
| 8:00 – 9:00 | Welcome registration, Lille Grand Palais | | | | | | | |
| 9:00 – 10:40 Symposium 5 | New insights on prospective remembering: How motivational, social and emotional variables affect intention completion in young and older adults | Studying cognition through musical ensembles | Crowding and focal attention in the visual recognition of words, faces and objects | Videogames and cognitive enhancements: mechanisms and applications | Beyond the switch – using (voluntary) task switching to investigate psychological questions other than task switching per se | Bodily and interoceptive dynamics and their roles in affective, linguistic and conscious processes | Mechanisms of Sound Symbolism | Interruptions in memory-based tasks |
| 10:40 – 11:00 | Coffee break, hall Lille | | | | | | | |
| 11:00 – 12:40 Talk 5 | Differential & Developpemental approaches in memory | Decision making | Reading | Working memory & Informational context | Cognitive control & working memory | Imageability & Meaning | Motor Cognition & Higher cognitive functions | Social Attention |
| 12:40 – 14:30 | Lunch & Posters 3, hall Lille | | | | | Product demonstration 13:00–14:00, rooms 3.1 B & C (floor 3) | | |
| 14:30 – 16:10 Talk 6 | Speech perception & spoken word recognition | Associative memory and statistical learning | Cognitive training | Clinical approaches & Interpretation | Working memory & Long-term memory | Metacognition & goal-directed behavior | Perception & Motor Cognition | Social Intention & Projection |
| 16:10 – 16:30 | Coffee break, hall Lille | | | | | | | |
| 16:30 – 18:10 Symposium 6 | On the origins of abstract concepts | Uncovering the Meanings of Ambiguous Words: New Thinking from Corpus, Computational, and Behavioural Perspectives | Object Memory: Which factors contribute to differences in the fidelity of recognition and retrieval? | New insights into social attention | The impact foreign-accented speech on language processing and social behaviour | Unfolding the reliability paradox in attentional-control research | Embodied cognition of aging: The sensorimotor and social contribution to cognition | Cognitive-motor interference |
| 18:20 – 19:20 | Keynote speaker & Closing ceremony | | | | | | | |
| | Emily Cross | | | Mechanisms and Consequences of Attributing Socialness to Artificial Agents | | | | |

| | | | | | | | | |
